Changes to the Grades 1, 2, and 3 Instructional Planning Grouping Mats

It was brought to our attention that there were no Fluency Activities included in the Reading Accuracy and Fluency columns on the Grade 2 and 3 Mats. Also, no Graphophonemic Knowledge Activities were included in the Reading Accuracy and Fluency column on the Grade 1 Mat. For those who have already made the Mats, we have created a strip with the additional activities listed. Follow these easy steps to add the activities to your Mat.

1. Print this document. (It need not be in color.)
2. Cut the appropriate strip.
3. Grade 1: Trim the strip and tape it below the current listed activities in the Reading Accuracy and Fluency column.
4. Grades 2 and 3: Tape the top of the strip just below the words "Activity Page" so that the strip will "flip" up and expose the current activities listed.

These changes have been made on the Grouping Mats posted at http://cars.uth.tmc.edu/
